DIPANSHU CHOUDHARY

AI/ML Engineer | Agentic & Generative AI | LLM Workflows | Scalable Backend Systems
Delhi, India | DipanshuChoudhary109@gmail.com | +91-7011860328
LinkedIn | GitHub | Portfolio

Professional Summary:

AI/ML Engineer specializing in agentic AI and autonomous multi-agent systems, building production-grade generative AI architectures. Experienced in designing scalable, backend-driven LLM systems integrating automation pipelines and real-time decision workflows.

Experience:

- **AI Automation & Agent Developer –** Designed and deployed AI agents for two brands, automating business workflows and reducing manual operations.
- **Research Assistant –** Collaborating with faculty on AI/ML projects with a focus on deep learning and generative AI applications**.**
- **Open-Source Contributor (Hugging Face) –** Contributing to the Transformers library codebase and exploring advanced implementations in modern NLP systems.

Technical Skills:

Languages: Python • Java • TypeScript • JavaScript
AI/ML: Deep Learning • Transformers • Generative AI • LLMs • Fine-Tuning • NLP • Prompt Engineering
Frameworks: React • LangChain • LangGraph • LangSmith • CrewAI • MCP • TensorFlow • PyTorch
Backend & Deployment: FastAPI • REST APIs • MLflow • Docker • Kafka
Databases: PostgreSQL • MySQL • Redis • Vector Databases
Computer Vision: OpenCV • MediaPipe • PIL
Cloud & DevOps: GCP • AWS • GCS • CI/CD
Version Control: Git • GitHub

Projects:

- **Quizzer (Dec 2025 – Present)** – Built a scalable AI-powered secure assessment platform with backend-controlled exams, real-time integrity tracking, and automated LLM-based grading. • **Autonomous Multi-Platform AI Agent (Jan 2026)** – Built a Python-based autonomous LLM agent capable of executing user-defined tasks across chat platforms using dynamic tool orchestration and persistent memory.
- **MediSure (Jun 2025)** – Built an AI-powered medical prediction SaaS with user authentication, secure patient data management, voice-based symptom analysis, and real-time speech synthesis.
- **AI Essay Mentor (Aug 2025)** – Built an LLM-based essay evaluation system generating scores, summaries, and improved drafts through structured multi-step workflows with tier-based access.

Bachelor of Computer Applications (BCA)
Amity University, Noida (2024–2027) | CGPA: 8.5/10
